How to personalize your dashboard

Experience the Benefits of People
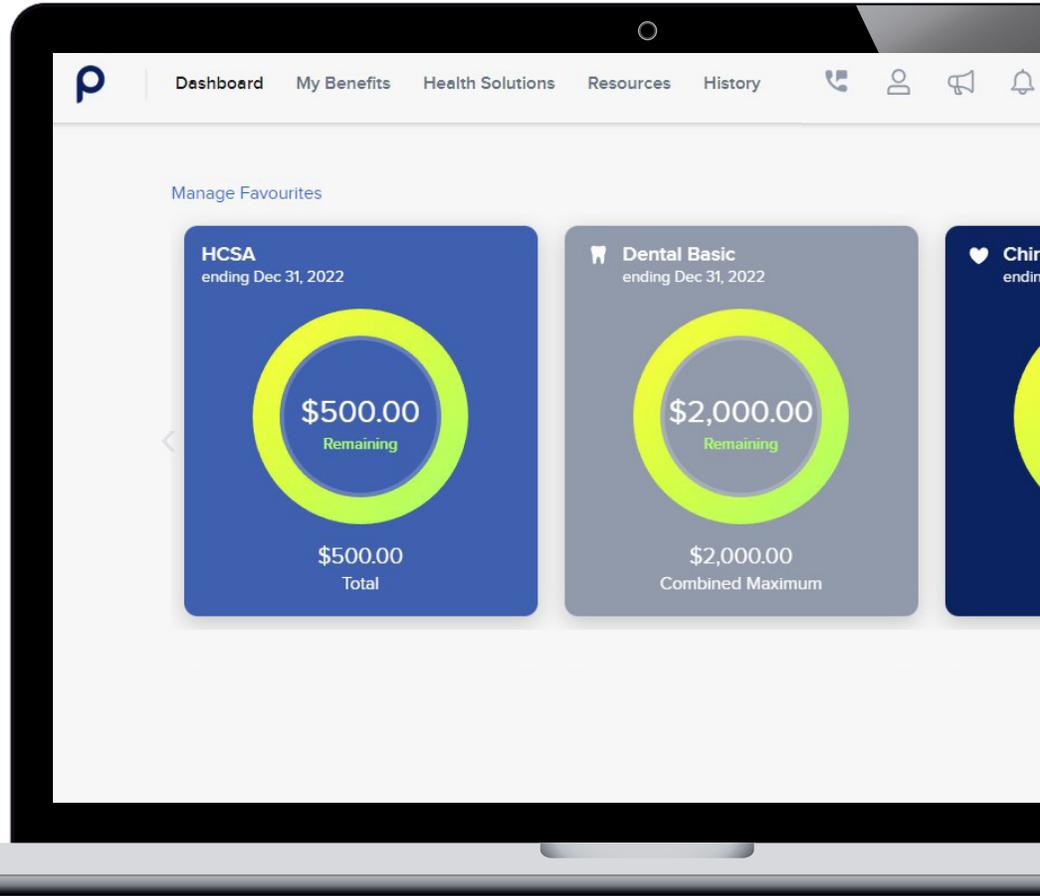

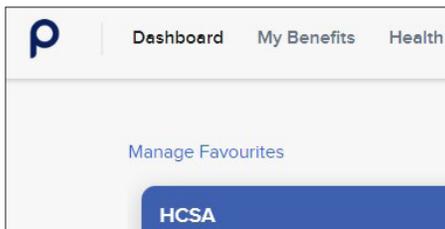

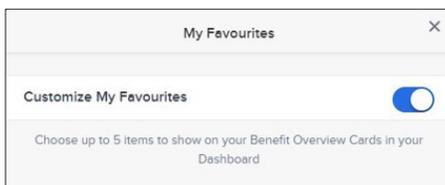

Customize your dashboard for quick access to coverage information that's most important to you.
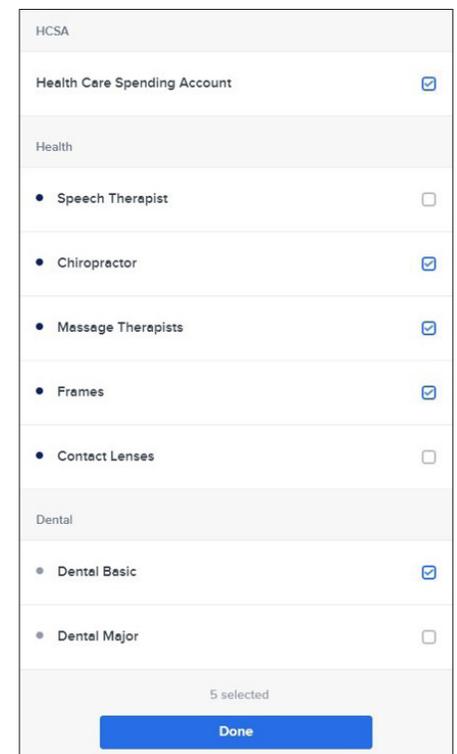

To start personalizing your dashboard, click on **Manage Favourites**.

Make sure the **Customize My Favourites** toggle is turned on.

This will display the list of available coverage types. Click on the check box beside each coverage type you'd like displayed on your dashboard. You can choose up to 6 options and can change this as often as you'd like. Click **Done** to save your selection.
